

Advanced Manufacturing Technician Program

What is AMT?

The Advanced Manufacturing Technician (AMT) Program is an exciting, two-year Apprenticeship that combines cutting-edge associate degree curriculum from Vincennes University with paid working experience at local world class manufacturing companies. This program allows high school graduates to learn attractive, high-tech skills and apply this understanding “on the job” at world-class manufacturers in the Southern Indiana area.

Do I Qualify?

Seniors or graduates are eligible to apply for the program through the Vincennes University application process.

Math and English capability as measured through ACT/SAT or Accuplacer scores. (MATH 102 and ENG 101) Some of the SoINFAME employers may have additional requirements as a part of their selection process.
